Information about the speaker

CEO and co-founder of the company. Michael is a mathematician with over six years of experience as Vice President of Exotics & Hybrids at JP Morgan. He also worked at Zalando, where he led teams of data scientists and AI specialists focused on optimizing payment algorithms before joining OBI Holding Group. He has been working intensively on Distributed Ledger Technology for over seven years. He founded various companies in this field, including one of the first companies in Europe, which in 2013 focused exclusively on cryptocurrencies and mining.
